

"Randy's educational songs based on the theme Africa are terrific for our holistic approach to teaching. He not only sings songs but has a visual aide and engages the children through questions and inquiry. The parents loved the show and were thrilled that their children had the opportunity to be part of such a wonderful learning experience. We have been asked whether Randy has such other themes too. Keep them coming Randy!"

"Our daughter began listing to "Let's Go to Africa" when she was 2-1/2 and still loves to listen to it a year later. I love the educational aspect, it's fun to hear her "spelling" along with Randy, and I really believe children learn best through play and song. Randy has a vivid imagination and his lyrics are fun and upbeat. Our daughter especially likes the strong drumbeats and animal sounds in the songs. I also appreciate that while this is a kids' CD that keeps her attention, it doesn't drive me crazy - I enjoy listening and singing along, too! "

Here's what the kids are saying:

"Randy is very, very cool. By now I hope all of the second grader's in Hancock Elementary School saw Randy and had a lot of fun in Africa."

Dear Mr. Randy,

"I like your music very much and I like to listen to your music. I learned a lot about Africa from your music."

"Some of the songs were "Down the Nile River" and "Doodlie do". He could play the drums too! Randy is a lot of fun. Randy should come to your class!"
